

पाठ्यक्रम(1) पद - Physiotherapists**Human Anatomy****A. General Anatomy:**

- 1) Introduction to Anatomy, terms and terminology
- 2) Regions of Body, cavities and Systems outline.
- 3) Surface anatomy – Musculo-skeletal and cardiopulmonary
- 4) Cell Structure and function of cell organelles (Brief outline only).
- 5) Connective tissue & its modification, tendons, membranes, Special connective tissue.
- 6) Bone structure, blood supply, growth, ossification, and classification.
- 7) Muscle classification, structure and functional aspect.
- 8) Nerve – structure, classification, microscopy with examples.
- 9) Neurons, classification with examples. Simple reflex arc.
- 10) Parts of a typical spinal curve/Dermatome
- 11) Joints – classification, structures of joints, movements, range, limiting factors, stability, blood supply, nerve supply, dislocations and applied anatomy.
- 12) Circulatory system – major arteries and veins of the body, structure of blood vessels
- 13) Lymphoid system – circulation + function, lymphoid organs- and their structure & functions.

B. Upper extremity:

- 1) Bony architecture
- 2) Joints – structure, range of movement
- 3) Muscles – origin, insertion, actions, nerve supply
- 4) Major nerves – course, branches and implications of nerve injuries
- 5) Development of limb bones, muscles and anomalies
- 6) Radiographic identification of bone and joints

C. Lower Extremity:

- 1) Bony architecture
- 2) Joints – structure, range of movement
- 3) Muscles – origin, insertion, actions, nerve supply
- 4) Major nerves – course, branches and implications of nerve injuries
- 5) Development of limb bones, muscles and anomalies
- 6) Radiographic identification of bone and joints

D. Spine:

- 1) Back muscles - Superficial layer, Deep muscles of back, their origin, insertion, action and nerve supply.
- 2) Vertebral column – Structure & Development, Structure & Joints of vertebra
- 3) Radiographic identification of bone and joints

E. Thorax:

- 1) Thoracic cage
- 2) Pleural cavities & pleura
- 3) Lungs and respiratory tree
- 4) Heart and great vessels
- 5) Diaphragm

F. Head and neck:

- 1) Cranium
- 2) Facial Muscles
- 3) Structure of eyeball in brief and extra ocular muscles, visual pathway
- 4) Ear and auditory pathway
- 5) Triangles of Neck, boundaries and contents
- 6) Tongue – parts ,extrinsic and intrinsic muscles, motor and sensory nerves, gustatory pathway
- 7) Pharynx
- 8) Larynx

G. CNS:

- 1) Central nervous system – disposition, parts and functions
- 2) Cerebrum
- 3) Cerebellum
- 4) Midbrain & brain stem
- 5) Blood supply of brain & its applied anatomy
- 6) Spinal cord- anatomy, blood supply, nerve pathways
- 7) Pyramidal, extra pyramidal system
- 8) Thalamus, hypothalamus
- 9) Ventricles of brain, CSF circulation
- 10) Development of nervous system & defects (Brief Description)
- 11) Cranial nerves – special emphasis on V, VII, X, XI, XII (course, distribution and palsies)
- 12) Sympathetic nervous system, its parts and components (Brief Description)
- 13) Parasympathetic nervous system (Brief Description).

H. Endocrine - system – Pituitary, Thyroid, parathyroid (Brief Description)**I. Embryology in brief of neuromuscular tissue****J. Abdomen (Brief descriptions only):**

- a. Boundaries , Muscles of abdominal wall
- b. Division of Abdominal cavity
 - i. Pouch of Douglas
 - ii. Morrisons pouch

K. Pelvis

- 1) Pelvic floor, innervations
- 2) Bony Pelvis

L. Digestive system (Liver & pancreas, Alimentary canal)**M. Urinary system – Kidney, Ureter, bladder, urethra****N. Genital system – Male and Female****Kinesiology**

1. Basic Concepts
2. Muscular system
3. Joints
4. Machinery Musculoskeletal system
5. Principles of Motion
6. Principles of force and work
7. Basics of the development of motor skill
8. Principles of stability
9. Postural principles

HUMAN PHYSIOLOGY**1. GENERAL PHYSIOLOGY**

- 1) Structure of cell membrane
- 2) Transport across cell membrane
- 3) Functional morphology of the cell
- 4) Intercellular communication
- 5) Homeostasis

2. CARDIOVASCULAR SYSTEM

- 1) General introduction of cardiovascular systems.
- 2) Structure and properties of Cardiac muscle.
- 3) Dynamics of blood & lymph flow
- 4) Anatomical, biophysical consideration of arterial, arteriolar & capillary venous level, Lymphatic circulation
- 5) Cardiac cycle and Heart sounds, Mechanical events of Cardiac cycle, Cardiac output, its regulation.
- 6) Origin and spread of cardiac excitation
- 7) Basic idea of Electrocardiogram and Interpretation of normal Electrocardiogram.
- 8) Cardiac output and cardiac failure.
- 9) Venous return,
- 10) Heart rate and its regulation.
- 11) Structure and organization of vascular tree.

- 12) Arterial blood pressure and pathophysiology of Hypertension.
- 13) Characteristic of Coronary circulation and pathophysiology of Coronary artery disease
- 14) Capillary circulation and physiological basis of Edema.
- 15) Local & systemic regulatory mechanisms of CVS, humeral & neural
- 16) Patho-physiology of Shock.
- 17) Cerebral, coronary, splanchnic, skin, Placental & Fetal circulation

3. RESPIRATORY SYSTEM

- 1) Functional anatomy of Respiratory System , Physiological anatomy of lungs, mechanics of respiration
- 2) Mechanics of breathing: Mechanism of inspiration and Expiration, intra-pleural and intra-alveolar pressures, Compliance, Surfactant, Air-way resistance and work of breathing
- 3) Pulmonary circulation, Respiratory membrane and Gas exchange in lungs
- 4) Composition of gases and Partial pressures.
- 5) Oxygen and Carbon-dioxide transport.
- 6) Other function of respiratory system
- 7) Lung Volumes, Capacities and Lung function tests.
- 8) Neural and Chemical control of breathing.
- 9) Regulation of respiratory activity, non-chemical influences on respiratory activity
- 10) Physio-clinical aspects of Dyspnoea, Apnoea, Asphyxia, Hypoxia, Cyanosis, Breath holding, high and Low atmospheric pressures.

4. CARDIO RESPIRATORY ADJUSTMENTS IN HEALTH & DISEASE

- 1) Exercise, high altitude, deep sea diving
- 2) Hypoxia, hypercapnia, hypocapnia, oxygen treatment
- 3) Asthma, emphysema, artificial respiration

5. BLOOD

- 1) W.B.C., R.B.C., Platelets formation & functions
- 2) Plasma, Blood Groups
- 3) Haemostasis, Immunity

6. RENAL SYSTEM

- 1) Functions of Kidney , Formation of Urine , Glomerular filtration rate, clearance, Tubular function
- 2) Water excretion, concentration of urine-regulation of Na, Cl, K excretion
- 3) Physiology of urinary bladder, Micturition- Neurogenic bladder.

7. DIGESTIVE SYSTEM.

- 1) Digestion & absorption of nutrients
- 2) Gastrointestinal secretions & their regulation
- 3) Functions of
 - (a) Saliva,
 - (b) Gastric juice,
 - (c) Pancreatic juice
 - (d) Succus entericus,
 - (e) Bile.
- 4) Movements of G.I.T.
- 5) Functions of Liver & Exocrine Pancreas

8. NERVE - MUSCLE AND SYNAPTIC & JUNCTION TRANSMISSION

- 1) Nerve – General Concept
- 2) Nerve cell – structure
- 3) Genesis of resting membrane potential & Action potential
- 4) Their ionic basis, All or None phenomenon
- 5) Ionic basis of nerve conduction
- 6) Classification & types of nerve fibre
- 7) Mixed nerves & compound action potential
- 8) Concept of nerve injury & Wallerian degeneration
- 9) Muscle properties and functions
- 10) Electric & Mechanical responses & their basis
- 11) Concept of isometric & isotonic muscle contraction
- 12) Electrical events in postsynaptic neurons
- 13) Inhibition & facilitation at synapses
- 14) Chemical transmission of synaptic activity

- 15) Principal neurotransmitter system
- 16) Neuromuscular junction, structure & events occurring during excitation

9. NERVOUS SYSTEM (descriptive)

- 1) Organization of Nervous system.
- 2) Neuron and Neuralgia
- 3) Synapse: Properties and Synaptic transmission.
- 4) Reflex arc, its components, properties, type and neurological impairments.
- 5) General sensations and their properties.
- 6) Ascending tracts of the Spinal cord and effects of their lesions.
- 7) Pain and physiological Analgesia.
- 8) Motor neurons, Descending tracts and their applied aspects.
- 9) Regulation of Muscle Tone by Spinal and Supra-spinal mechanism.
- 10) Function of Brain -stem, Cerebellum, Basal Ganglia and Motor cortex.
- 11) Control of Voluntary movement
- 12) Regulation of posture and equilibrium, vestibular apparatus.
- 13) Broad functions of Thalamus, Hypothalamus, Major lobes of Cerebral cortex and Ascending Reticular
- 14) Activation System
- 15) Limbic System
- 16) Learning, memory, speech and conditional reflexes.
 - a. Reflexes, monosynaptic, polysynaptic, withdrawal reflex
 - b. Properties of reflexes
 - c. Sense organ, receptors, electrical & chemical events in receptors
 - d. Ionic basis of excitation
 - e. Sensory pathways for touch, temperature, pain, proprioception, others
 - f. Control of tone & posture: Integration at spinal, brain stem, cerebellar, basal ganglion levels, along with their functions & clinical aspects
 - g. Autonomic nervous system & Hypothalamus
 - i. Functioning of Autonomic Nervous System with special reference to micturition, defecation and labour ii. Higher neural regulation of ANS.

10. HIGHER FUNCTIONS OF NERVOUS SYSTEM

- a. Learning & memory, neocortex,
- b. Limbic functions, sexual behaviour, fear & range, motivation

11. SPECIAL SENSES

- 1. Functional anatomy of the Eye
- 2. Optics of Vision
- 3. Retinal Function
- 4. Visual Pathways
- 5. Mechanism of Hearing.
- 6. Sensation of Taste and Smell.

12. ENDOCRINE

- 1. Role of Hypothalamus as an endocrine gland.
- 2. Functions and hypo & hyper secretion of hormones of
 - a. Pituitary
 - b. Thyroid
 - c. Parathyroid
 - d. Adrenal
 - e. Endocrine part of pancreas.

13. REPRODUCTIVE SYSTEM

- a) Male & female reproductive system
- b) Spermatogenesis, Functions of Testosterone.
- c) Ovarian and Menstrual Cycle and their hormonal control.
- d) Hormones of Ovary and their functions.
- e) Physiological basis of Fertilization, Implantation, Pregnancy, Parturition and Lactation.
- f) Contraception.

14. EXERCISE PHYSIOLOGY

- 1. Effects of acute & chronic exercises
- 2. Oxygen/CO₂ transport – O₂ debt.

3. Effects of Exercises on muscle strength, power, endurance, B.M.R., R.Q.- hormonal & metabolic effects respiratory & cardiac conditioning.
4. Aging.
5. Training, fatigue & recovery.
6. Fitness- related to age, gender, & body type.

15. SKIN AND BODY TEMPERATURE REGULATION

1. Functional anatomy of the Skin and its function
2. Different mechanisms involved in body temperature regulation.
3. Physiological basis of Pyrexia and Hypothermia

FUNDAMENTALS OF PHYSICS, BIOMECHANICS & EXERCISE THERAPY

Course Contents:

All topics are for a brief description only

1. Mechanics - Definition of mechanics and Biomechanics
2. Force - Definition, diagrammatic representation, classification of forces, concurrent, coplanar and co-linear forces, composition and resolution of forces, angle of pulls of muscle
3. Momentum - principles, and practical application
4. Friction
5. Gravity - Definition, line of gravity, Centre of gravity
6. Equilibrium - Supporting base, types, and equilibrium in static and dynamic state
7. Levers - Definition, function, classification and application of levers in physiotherapy & order of levers with example of lever in human body
8. Pulleys - system of pulleys, types and application
9. Elasticity - Definition, stress, strain, HOOKE'S Law
10. Springs - properties of springs, springs in series and parallel, elastic materials in use
11. Aims and scope of various biomechanical modalities – shoulder wheel, shoulder ladder, shoulder pulleys, pronator-supinator instrument, static cycle, rowing machine, ankle exerciser, balancing board, springs, weights
12. Normal Posture - definition & description, static and dynamic, alignments of various joints, centre of gravity, planes & muscular moments, and Analysis of posture
13. Movements - Anatomical definition and description, Movements and exercise as therapeutic modality and their effects, Physiological reaction of exercise
14. Traction - Rationale, Technique, indications & contra-indications
15. Normal Gait - definition & description, alignments, centre of gravity during gait cycle, planes & muscle acting mechanisms, pattern, characteristics Normal gait cycle, time & distance parameters, & determinants of Gait
16. Starting positions - Description and muscle work, Importance of fundamental and derived types, Effects and uses of individual positions
17. Soft tissue manipulation - History, definition, types and their rationale, general effects, local effects of individual manipulation (physiological effects) and uses, contra-indications and techniques of application

FUNDAMENTALS OF MEDICAL ELECTRONICS & PRINCIPLES OF BIOELECTRICAL MODALITIES

Course Contents: N.B.- All sections carry equal weightage. All topics are for a brief description only.

Section – A: FUNDAMENTALS OF MEDICAL ELECTRONICS & MAGNETISM

1. DC Currents -Modern concept of electricity: fundamental electric charges (proton and electron), bound and free electrons, free electrons and current, static electric charge, charging of an object, potential and capacitance, potential difference and EMF
2. A. C. currents: Sinusoidal wave form, frequency, wavelength, Amplitude and phase of a sine wave, Average & RMS value of a sine wave
3. Quantity of electricity, magnitude of current, conductors and insulators, resistance of conductor and Ohm's law, resistances in series and parallel
4. Capacitors: Electric field around a capacitor, charging and discharging of capacitor, types of capacitor with application of each in Physiotherapy department
5. Rheostat: series and shunt Rheostat with application of each in the Physiotherapy department
6. Effects of electric Current: Thermal effect, chemical effect (ionization) and magnetic effect. Electric shock, Earth shock, causes and its prevention
7. Magnetism: Magnetic - non-magnetic substances and their properties, properties of magnet, molecular theory, poles of magnet and its properties, magnetic lines of force and their properties, Electromagnetism, magnetic effects of electric current, Electromagnetic induction, Lenz's law, Inductor and Inductance, types of inductor, reactance and impedance.

Section – B: Electronic Devices

1. Thermionic Valves: Thermionic emission, Diode and Triode valves and their characteristics, Construction and application of Cathode Ray Oscilloscope

2. Semiconductor Devices: Intrinsic and extrinsic semiconductors, advantages of diode and transistors devices. Basing of Diode and their characteristics, Light Emitting Diodes, integrated circuits, Advantage of semiconductor devices over thermionic valve
3. Electronic Circuits: Rectifiers, Wheat stone bridge & smoothing circuits, Oscillators and its types.
4. A.C. AND D.C. meters: Functions and applications of Ammeter and volt meters, Ohmmeters,
5. Introduction to Therapeutic Energies – Thermal, Mechanical, Electrical, Electromagnetic and magnetic - Definition, description, Electromagnetic spectrum, physiological effects, pathological effects and dangers

Section – C: Bioelectrical Modalities

6. Medical Instrumentation For Physical Therapy: Brief description of generation, circuit diagrams and testing
7. Low frequency currents, Direct currents
8. Medium frequency currents
9. Short wave Diathermy-continuous and pulsed
10. Microwave Diathermy
11. Ultrasound
12. Actino-therapy – Infrared- Types of generators , UVR-generators , types, dosimetry and LASER- Productions & instrumentation, classification and physiological effects.

PSYCHOLOGY & SOCIOLOGY

SECTION:A- PSYCHOLOGY Course Contents:-

1. What is psychology? Fields of application of psychology, influence of heredity and environment on the individual
2. Learning – theories & principles learning
3. Memory, Forgetting, theories of memory and forgetting, thinking & methods to improve memory
4. Thinking – process, problem solving, decision making and creative thinking
5. Motivation - theories and types of Motivation
6. Emotions - theories of Emotions and stress
7. Attitudes – theories, attitudes and behavior, factors in attitude change
8. Intelligence - theories of intelligence
9. Personality, theories of personality, factors influencing personality
10. Development and growth of behavior in infancy and childhood, adolescence, adulthood and old age
11. Behavior - normal and abnormal
12. Counseling - Definition, Aims and principles
13. Psychotherapy – brief introduction to paradigms in psychopathology and therapy
14. Psychological need of children and geriatric patients
15. Communication – effective and faulty
16. Emotional and behavioral disorders of childhood and adolescence- (in brief) a) Disorders of under and over controlled behavior b) Eating disorders
17. Mental deficiency
 - a) Mental retardation,
 - b) Learning disabilities
 - c) Autistic behavior
18. Anxiety Disorders -
 - a) Phobias, panic disorder,
 - b) Generalized Anxiety disorder,
 - c) Obsessive Compulsive Disorder,
 - d) Post –traumatic Stress Disorder
19. Somatoform and Dissociate Disorders -
 - a) Conversion Disorder,
 - b) Somatization Disorder,
 - c) Dissociate Amnesia & Dissociate Fugue
20. Personality Disorder
21. Patho-physiological Disorders – stress and health
22. Severe psychological disorders – Mood disorders, psychosis

SECTION:B- SOCIOLOGY Course Contents:-

A-Introduction

1. Meaning-Definition and scope of Sociology
2. Its relation with Anthropology, Psychology, Social Psychology and ethics.
3. Methods of Sociology-case study, Social Survey, Questionnaire, interview and opinion poll methods.
4. Importance of its study with special reference to health care professionals.

B-Social Factors in Health and Disease:

1. The meaning of Social Factors.
2. The role of Social factors and illness.

C-Socialization:

1. Meaning and nature of Socialization.
2. Primary, Secondary, and Anticipatory Socialization.
3. Agencies of Socialization.

D. Social Groups:

1. Concepts of social groups.
2. Influence of formal and informal groups on health and sickness.
3. The roll of primary groups and secondary groups in the hospital and rehabilitation settings.

E- Family:

1. The family - Meaning and definition, Functions
2. Changing family Patterns
3. Influence of family on the individual health, family, and nutrition.
4. The effects of sickness on family and psychosomatic disease and their importance to Physiotherapy

F-Community:

1. Rural community – Meaning and features – Health hazards of rural population
2. Urban community – Meaning and features – Health hazards of urban population

G-Culture and Health:

1. Concept of culture
2. Cultures and Behaviour
3. Cultural meaning of sickness
4. Culture and health disorders

H-Social change:

1. Meaning of social changes & Factors of social change.
2. Human adaptation and social change.
3. Social change and stress.
4. Social and deviance.
5. Social change and health Program.
6. The role of social planning in the improvement of health and in rehabilitation.

I-Social problems of disabled: Consequences of the following social problems in relation to sickness and Disability, remedies to prevent these problems

1. Population explosion.
2. Poverty and unemployment.
3. Beggary.
4. Juvenile delinquency.
5. Prostitution.
6. Alcoholism.
7. Problems of women in employment.

J-Social security: Social security and social legislation in relation to the Disabled.**K-Social worker: Meaning of social work; the role of a medical social worker.**

MSW Course
1st Semester

Paper: I: Introduction to Social Welfare

Unit-I: Concept of Social Welfare

1. Social Welfare: Concept, need and objectives
2. Philosophy of Social Welfare and Social work
3. Social welfare in historical perspective
4. Changing concepts and practices of social welfare in relation to social, economic and industrial development
5. Changing political philosophy and its impact on social welfare

Unit-II: Social Welfare and related terms

1. Social Development
2. Social Planning and social administration
3. Social reform
4. Social Security
5. Social Policy
6. Social Action
7. Social justice
8. Social and welfare services
9. Social legislation
10. Human Rights

Unit-III: Professional Social work an Introduction

1. The concept of professional social work-alignment of scientific and humanitarian motives for promoting social welfare
2. The basic principles and values of professional social work and their relationship to the values of Indian Society
3. Evolution of professional social work in UK, USA and India

Unit-IV: Social work as a profession

1. Nature and characteristics of a profession
2. Professional status of Social work in India
3. Code of ethics for social workers

Unit-V: Methods of Social Work

1. Primary Methods of Social Work
2. Secondary Methods of Social Work
3. Integrated approach of social work
4. Interface between Professional and voluntary social work

Suggested Readings:

- Friedlander, WA: Introduction to Social welfare (New York: Prentice Hall, 1959)
- Government of India: Social Welfare in India (New Delhi, Planning Commission 1980)
- Shastri, Rajaram: Samaj Karya (Varanasi: Kalyan Tatha Saksha Sansthan, 1972) Pathak, S: Social welfare (New Delhi: Mac Millan India, 1981)
- Kulkarni, PD and MC Nanavati: NGOs in the Changing Scenario (New Delhi: Uppal Publishing House, 1998)
- Surendra Singh (Chief Editor): Encyclopedia of Social work in India: New Royal Book Company, Lucknow, 2012)
- Sanjay Bhattacharya: Introduction to Social Work (Deep and Deep Publications, New Delhi-2008)
- Desai M: Curriculum Development on History of Ideologies for Social Change and Social Work, TISS Mumbai-2002)
- Banks, S: Ethics and Values in Social Work (Macmillan Press Ltd, London-1995)

Paper 2: Fundamentals of Human Growth and Behaviour

Unit I: Mental Health & Psychology

1. Psychology : Definitions and Fields
2. Mental Health : Meaning, Definitions, Characteristics
3. Normal & Abnormal Behaviour : Meaning, Characteristics
4. Human Development : Heredity and Environment

Unit II: Mental Hygiene

1. Meaning, Definition and scope of Mental Hygiene
2. Characteristics and Importance of Mental Hygiene
3. Aims of Mental Hygiene
4. Principles of Mental Hygiene
5. Programme of Mental Hygiene

Unit III: Developmental Stages

1. Developmental Stages I : Prenatal,
2. Developmental Stages II : Infancy
3. Developmental Stages III : Babyhood,
4. Developmental Stages IV : Childhood

Unit IV: Developmental Stages

1. Developmental Stages I : Puberty, Adolescence,
2. Developmental Stages II: Adulthood.
3. Developmental Stages III : Middle age,
4. Developmental Stages IV Old age.

Unit V: Social Psychology

1. Nature and scope of social psychology
2. Attitude: nature and measurement of attitude prejudice and discrimination
3. Communication: concept, methods, skills in communication, major obstacles
4. Mass communication, public opinion, propaganda, fashion, social facilitation crowd behavior.

Suggested Readings:

- Hurlock, E.B. : Developmental Psychology, A Life Span Approach (Tata McGraw-Hill, New Delhi, 1977)
- Morgan, C.T. : Introduction to Psychology 7th Edition (Tata McGraw-Hill, New Delhi, 1993)
- Hall, C.S. and Lindzey, G. : Theories of Personality (Wiley New York, 1978)
- Page, J.D. : Abnormal Psychology (Tata McGraw-Hill, New Delhi, 1991)
- Jayaswal, S.R. : Guidance and Counseling : an Elective Approach (Lucknow, 1968)
- Maslow, A.H. (1943) A Theory of human motivation. Psychological Review
- Murray H.A. (1938) Exploration in personality. N.Y. Oxford University Press
- Kuppaswamy, B. : Introduction to Social Psychology (Asia Pub. House, Bombay, 1961)
- Baron, R. A. and Byrne, D. : Social Psychology, 8th Edition (Prentice Hall of India Pvt. Ltd., New Delhi 2000)
- Rao N. S. : Counseling and Guidance (Tata McGraw-Hill, New Delhi, 1991)

Paper 3: Introduction to Contemporary Indian Society

UNIT I: Conceptual & Theoretical Perspectives to Understand Society

1. Society: Nature, Approaches, Functions, Theories of Society (Evolutionary, Cyclical, Conflict and Systems theories).
2. Social Group: Concept & Characteristics of Primary Group, Secondary Group, Reference Group.
3. Social Institutions: Family, Marriage, Kinship, Property (Present trends).
4. Culture: Concept of Culture, Traditions, Customs, Values and Norms.

UNIT II: Social System and Social Process of Contemporary Society

1. Social System & Sub-system: Structure & Function, Classification of System.
2. Social Structures: Status & Role.
3. Social Process: Meaning and kinds of Social Interaction, Socialization, Cooperation, Conflict, Assimilation, Social control.

UNIT III: Polity & Economy of Contemporary Society

1. State: Elements, Role and Functions.
2. Democratic government & process.
3. The nature of economic development, Classification of Developing Countries.
4. Meaning of Globalization, Liberalization, Privatization.

UNIT IV: Social Stratification and Social Change in Contemporary Society

1. Social Stratification: Caste, Caste & Democracy, Tribes.
2. Social Change: Concept, Factors, Western theories.
3. Theories of Social Change in India: Sanskritization, Westernization, Modernization, Secularization.

UNIT V: Problems of Contemporary Indian Society

1. Social Problem: Concept, Factors, Theories.
2. Poverty: Causes, Factors, Extent, Consequences, Theories, Measures, Impact on society.
3. Population Explosion: Causes, Factors, Extent, Consequences, Measures, Impact on society.
4. Unemployment: Causes, Factors, Extent, Consequences, Theories, Measures, Impact on society.
5. Environment pollution: Causes, Factors, Extent, Consequences, Theories, Measures, Impact on society.
6. Malnutrition: Causes, Factors, Extent, Consequences, Theories, Measures, Impact on society.
7. Positive and negative impact of Social Media(Internet, Face Book, Social Media, Television, Cinema, Mobile etc.)

Suggested Readings:

- Ahuja, Ram: Social Problem in India (Rawat Publishers, Jaipur 1997) Madan, G.R: Indian Social Problems (Allied Publishers, New Delhi 1981) Reddy, K.S : Poverty and Unemployment (Anmol Publishers, New Delhi 1997)
- Vasant, Moon: Growing Up Untouchable in India(Sage Publication, New Delhi 2002) Ghanshyam, Shah: Dalit identity and Politics(Sage Publications, New Delhi 20010) Joshi, Sandeep: IRDP and Poverty Alleviation (Rawat Publications, Jaipur 1999) Beteile, A. Sociology. (New Delhi: Oxford.2002)
- Shankar Rao, C.N. Sociology. (New Delhi: S. Chand and Company Ltd.2005)
- Sharan, Raka A Handbook of Sociology. (New Delhi: Anmol Publications.1991)
- Srinivas, M.N. Indian Social Structure. New Delhi: Hindustan Publishing House.1991)

Paper: 4 Social Work Research & Statistics Part-1

Unit I: Research: Nature & Concept

1. Nature and Characteristics of Scientific method and Social Phenomenon
2. Meaning and definition of Research
3. Nature scope and importance of research

Unit II: Types and Concepts used in Research

1. Types of research: Historical, Descriptive, Analytical, Experimental, Interdisciplinary, Participative, action and evaluative research.
2. Concepts used in research: Variables, Attributes, Universe, Sample, Hypothesis, matching, Measurement, Control

Unit III: Problem Formulation and Hypothesis Testing

1. Problem formulation: Identifying probable issues for research, selecting specific research issue, formulation of objectives, clarifying the objective.
2. Concepts and relevance of Hypothesis formulation and testing: Level of Significance, Degree of Freedom, Type I Type 2 Error.

Unit IV: Data Collection and Analysis

1. Methods of tools of data collection: Observation and Interview Schedule, Questionnaire, and secondary methods of data collection.
2. Sampling design: Probability and non- probability
3. Data processing and analysis, interpretation and report writing

Unit V: Research Design

1. Research design: Concept, Meaning and importance of research Design
2. Types of Research Design:
3. Experimental Design: After only, Before-After, Ex-post facto experimental Design
4. Non Experimental Design: Exploratory, Descriptive and Diagnostic

Suggested Readings

- Ramchandran P: Issues in Social work research in India (Tata Institute of Social Sciences, New Delhi 1990)
- Coolidge, Frederick: Statistics: A Gentle Introduction (Sage Publication, New Delhi 2000) Bajpai, SR: Methods of Social Survey and Research (Kitab Ghar, Kanpur 1999)
- Lal Das D.K. Practice of Social Research (Rawat Publications, Jaipur 2000) Goode and Hatt: Methods in Social Research (Mc Graw Hill, New York 1957)
- Young, Pauline :Scientific Social surveys and Research (Prentice Hall of India, New Delhi 1968) Gupta CB: An Introduction to statistical Methods (Ram Prasad and Sons, Agra 1980)

1/12/21

Paper: 5 Social Work with Groups

Unit I: Understanding Concepts of Group Work

1. Concept of Group and its importance in human life cycle, Types of Groups
2. Concept and Characteristics of Social Group Work
3. History and Development of Social Group work in West and in India

Unit II: Social Group Work as a method of Social Work

1. Theories and Models in Social Group Work
2. Values and Principles of Social Group Work
3. Role of Group Worker
4. Social Group Work in various settings

Unit III: Social Group Work Process and Programmes

1. Stages / Phases in Group Development
2. Factors affecting Group Development and Role of Social Worker in different Stages of Group Development
3. Concept and Importance of Programme in Group Work Practice
4. Programme Planning, Development and Implementation Process

Unit IV: Skills, Techniques, Recording and Evaluation in Social Group Work

1. Skills of Group Worker- For Group Development, Programme Planning, and Programme Implementation
2. Recording in Group Work: Principles and Types of Recording, Techniques of Recording- Observation, Sociogram.
3. Evaluation in Group Work- Importance of Continuous evaluation in Group Work, Types and Methods of Evaluation

Unit V: Group Process and Dynamics

1. Social processes in group work
2. Leadership and its development in group work process
3. Communication in Group
4. Group Dynamics:- Group Bond, Group Conflict, Confrontation, Apathy and Group Control

Suggested Readings

- Bulgopal, P.R and Vassil,T.V (1983) Groups in Social Work: An Ecological Perspective, Macmillan publishing company inc., New York
- Blatt R.M, (1960) Records of Social Group Work Practice in India, Baroda University: Baroda
- Encyclopedia of Social Work in India. Vol.2 and 4 Dr. Surendra Singh(ed) , published by New Royal book company, New Delhi 2012

Specialization (Group E): Women and Child Development

Paper 1 (Group E) Women's Welfare and Development (Part-I)

Unit-I

1. Factors affecting the status of women
2. Changing situation of women in Indian society: Historical perspective
3. Role of education in the development of women's status

Unit-II

1. Patterns of women's employment and its relation to women's status: Social institutions and how they affect the status and role of women.
2. Democratization and women leadership.

Unit-III

1. Women's health status in India
2. Food and nutritional status of women
3. Factors affecting the health status of women

Unit-IV

1. Family planning: development of family planning programme in India
2. Organization and administration of family planning programme in India.
3. Methods of family planning: Physiological, Medicinal, Surgical, Chemical, IUD, Oral pill and abortion

Unit-V

1. Problems of women with reference to religious communities in India. Problems of unmarried mothers, destitute and widows
2. Problems of immoral violence against women: rape, sex delinquency, prostitution, devadasis and commercial exploitation of women.

Paper: 2 (Group E) Child Welfare and Development. (Part-I)

Unit-I

1. Development stages: significant facts about development periods of pre-natal development
2. Characteristics of infancy, factors influencing adjustment to post-natal life
3. Psychosocial development during babyhood and childhood.

Unit-II

1. Developmental tasks during stages of development
2. Characteristics of adolescence: Social change and perspective changes in adolescence
3. Role of social institutions and organizations like family, group, and school in the development of children and preparations for different adult roles.

Unit-III

1. Disabilities of child: physical, mental retardation, visual disability, hearing and speech problems.
2. Child abuse and neglect: child beggars, orphans destitute;
3. Children of prostitutes and child prostitution in India.

Unit-IV

1. Problems of child labour and legal provisions relating to child labour.
2. Family change disintegration and consequences: Juvenile delinquency, street children, school dropouts
3. Strategies of social work intervention dealing with children in critical situations.

Unit-V

1. Rights of the child: Historical evolution and recent trends (world summit and SAARC summit) Constitutional provisions for the protection and development of children.
2. National policy for children, major policy measures.

Group A: Human Resource Management

- (1) Labour Legislations
- (2) Management of Industrial Relations

Group B: Medical and Psychiatric Social Work

- (1) Rehabilitation and Social Work Intervention
- (2) Health Legislation: Policies and Programmes

Group C: Urban and Rural Community Development

- (1) Development Management Part-I
- (2) Urban Community Development and Municipal Administration

Group D: Social Welfare Administration

- (1) Social welfare in India Part-I
- (2) Administration of Social Welfare Part-I

Group E: Women and Child Development

- (1) Women's Welfare and Development Part-I
- (2) Child Welfare and Development Part-I

MSW Course
4th Semester

Paper: 1 Social Development

Unit-I

1. Concept of social development and indicators of social development
2. Ideologies and models of social development
3. Problems of Social development in India
4. Social development alternatives and social work

Unit-II

1. Brief account of social development programs and provisions in India's Five-year plans
2. Development of social services: Education, health and social welfare. Alternative models of social development

Unit-III

1. Development planning and the constitution: Directive Principles of State Policy and development as envisioned by the Constitution of India
2. Planning commission and planning process Role of elected bodies in development Problems of planning in India

Unit-IV

1. Development administration: concept and fields
2. Problems and prospects of development administration
3. Poverty and its socio-economic and political consequences
4. Welfare, economic and social development

Unit-V

5. Role of international organizations in promoting social development
6. NGOs and social development
7. Changing strategies and trends in voluntary development organizations
8. Social empowerment.
9. Social Entrepreneurship: Concept and practice

Suggested Readings

Or

Paper: I Computer Application in Social Sciences

Unit-I

1. Introduction to computer. Characteristics of computer. Introduction to computer hardware.
2. Memory units, Auxiliary storage devices, input devices. Output devices.
3. Introduction to computer software. Introduction to computer interpreter.
4. Programming languages.
5. Machine, Assembly and high-level languages.
6. Types of high-level languages.
7. Impact of computer on society.

Unit-II

1. MS Windows: Introduction to M.S. Windows; Features of Windows; Various versions of Windows & its use; Working with Windows.
2. Office Packages-Office activates and their software requirements, Word-processing, Spreadsheet, Presentation graphics, Database; introduction and comparison of various office suites like MSOffice, Lotus Office, Star Office, Open Office etc. MS Word Basics: Introduction to MS Office; Introduction to MSWord; Features & area of use.

Unit-III

1. MS Excel: Introduction and area of use; Working with MS Excel; concepts of Workbook & Worksheets; Using Wizards; Various Data Types; Using different features with Data, Cell and Text; Inserting, Removing & Resizing of Columns & Rows; Working with Data & Ranges; Different Views of Worksheets; Column Freezing, Labels Hiding, Splitting etc.; Using different features with Data and Text;
2. Use of Formulas, Calculations & Functions; Cell Formatting including Borders & Shading; Working with Different Chart Types; Printing of Workbook & Worksheets with various options.

Unit-IV

1. MS PowerPoint: Introduction & area of use; Working with MS PowerPoint; Creating a New Presentation; Working with Presentation.
2. WORLD WIDE WEB (WWW) - History, Working, Web Browsers, Its functions, URLs, web sites, Domain names, Portals. Concept of Search Engines, Search engines types, searching the Web, Web Servers, TCP/IP and others main protocols used on the Web. E-Mail: Concepts, POP and WEB Based E-mail, merits, address, Basics of Sending & Receiving, E-mail Protocols, Mailing List, Free Email services, e-mail servers and e-mail clients programs.

Unit-V

1. Introduction to SPSS: Application of SPSS software in social work and Social Science Research. Use of statistical packages. Use of various graphs and diagrams for the presentation of data.
2. Practical: CASS
3. The candidates offering computer application in social sciences will be required to complete the practical work and assignments given to them. These assignments will be valued internally.

Paper: 2 Training and Development

Unit-I

1. Need of Training and Development in the social welfare sector
2. Conditions for learning
3. Problems in learning
4. Learning characteristics
5. Role and skills required for a trainer

Unit-II

1. Training system: Concept and components
2. Need for systems approach to training

Unit-III

- Identification of training needs
- Determination of training objectives

Unit-IV

1. Designing training sessions and learning sessions.
2. Lesson Plan, Course materials, Visual aids, Room lay out and facilities, Delivery skills.
3. Training techniques and aids

Unit-V

1. Validation and implementation of training.
2. Evaluating effectiveness of training, assessment methods

Suggested Readings

16/7/21

Socialization (Group A): Human Resource Management

Paper: I (Group A) Labour Legislations

Unit- I Introduction

1. Need and scope of Labour legislation
2. Labour administration at central and state levels
3. Important of Labour Legislation in SW

Unit- II Wage Laws

1. Payment of Wages Act, 1936
2. Minimum Wages Act, 1948
3. Payment of Bonus Act, 1965

Unit -III Social Security Legislations

1. E.S.I. Act, 1948
2. Workmen's Compensation Act, 1923
3. Maternity Benefit Act, 1961
4. Employees Provident and Misc. Act, 1971
5. Payment of Gratuity Act, 1972

Unit- IV Legislations Regarding Working conditions

1. The Factories Act, 1948
2. The Mines Act, 1952
3. The Plantation Labour Act 1951
4. Shops and Establishment Acts.

Unit- V Legislation Regarding Industrial Relations

1. Industrial Employment (Standing Orders) Act 1964
2. Indian Trade Union Act 1926
3. Industrial Disputes Act, 1947
4. Industrial Relation Act, 1961

Suggested Readings

- Saxena RC: Labour Problems and Social Welfare (New Academic Publishers, Jalandhar-1971) Pillai MK: Labour and Industrial Laws (Allahabad Law Agency, Allahabad-1986)

- Moorthy MV: Principles of Labour Welfare (Oxford and IBH Publications co, New Delhi-1981)
- Mehrotra SN: Labour Problems in India (S Chand and Company Ltd., New Delhi-1981)
- Malik PL: Industrial Law (Eastern Book Company, Lucknow-1989)
- Bhagoliwal, TN and Bhagoliwal, Premkata: Shram Artha Shastra Evam Anushok Sambhavana (Sahitya Bhavan, Agra-1981)

16/12/21

Paper: 2 (Group: A) Managing Industrial Relations

Unit 1. Industrial Relations

1. Introduction to Industrial Relations- Concept, Evolution, Principles, Key Actors
2. Nature and Importance of Industrial Relations in Industrial Development of India.
3. Dominant Aspects of Industrial Relations : Industrial Co-operation and Conflict, Industrial Conflict: Nature, Manifestations and Etiology of Industrial Conflicts and Industrial Disputes, Strikes, Lockouts, Closure, Go-Slow and other forms

Unit 2. Mechanism for Preventing and Settling Industrial Disputes

1. Negotiation: Meaning, Effective Negotiation, Communication Style, Breaking deadlocks, Strategy and Tactics/ Game Negotiators Play, Closing Successfully, Reviewing, Collective Bargaining: Concept, Process, Subject matter, Legal and Psychological aspects of Collective bargaining, its advantages and limitation
2. Workers Participation and Management- Meaning, Objectives, need, Various forms and levels, Critical evaluation of WPM/Participative Management Schemes in India
3. Tripartite Approach in Industrial Relations: ILO, its structure and functions and role in labour movement and industrial development,
4. Methods for resolving Industrial disputes: Conciliation, voluntary arbitration and Adjudication
5. Review of dispute settlement machinery in India.

Unit- 3. Trade Unionism

1. Growth and Development of Trade Unionism in India- Historical Retrospect,
2. Trade Union- Meaning, Types, and functions of Trade Union
3. Role of Unions in Job Security, Wage Determination, Workers Education, Productivity and Economic Development
4. Trade Union and its new role in environment protection and Safety Promotions, Trade Union and its interface with market and technology, Social responsibility of Trade unions.
5. Globalization and its impact on Unionism- Global Economy, Labour Market and Domestic Laws. Current trends in employers association and changing role of unions in Global economy, employees welfare and overall industrial development

Unit- 4. IR Functions

1. Managing Industrial Discipline: Causes of Indiscipline, Disciplinary Action and Domestic Enquiry Procedures Drafting Disciplinary Action Letters- Show cause Notice, Charge Sheet, Principles of Natural Justice
2. Grievance Resolution- Concept of Grievance, Causes/ Sources of Grievances . Need of Grievance Procedure, model grievance procedure.

3. Communication and Counseling: Introduction to communication, Principles and Characteristics of effective Communication, Obstacles, Role of IR Manager in promoting and managing healthy IR, Social Work Intervention in Industry.
4. Social Aspects in Industry: Social responsibility of Organization, Evolution, Philosophy, Principles. CSR developmental projects- Goals and Implementation, Critical analysis of CSR approach, Roles of Social Workers/HR Professionals in helping industry discharge its Social Obligations, Ethical aspects in CSR projects, Social Auditing.

Unit 5. Organizational Behaviour

1. Group Behaviour and Team work- Foundation of Group dynamics, Group development and Cohesiveness, Group Performance and Decision making, Intergroup Relations, Teams in Organization, Effective Team Performance.
2. Leadership- Meaning and Characteristics, Types of Leadership, Traits of Effective Leadership, Impact of effective leadership on Organisation.
3. Total Quality Management- Meaning of Quality- Orientation to Customer Satisfaction and Scope of TQM and TQC, tangible and intangible benefits of TQM, TQM Leadership Issues, Total Employee Involvement, 5S Concept
4. Job Satisfaction, Motivation and Morale

 16/12/16

Specialization (Group B): Medical and Psychiatric Social Work

Paper 1: (Group B): Rehabilitation and Social Work Intervention

Unit I – Hospital Social Work

1. Scope of Practice of Hospital Social Work
2. Duties and Responsibilities of Hospital Social Worker
3. Function of Hospital Social Worker
4. Skills of Hospital Social Worker
5. Role of Hospital Social Worker

Unit II – Psycho Social Rehabilitation

1. Psycho Social Rehabilitation : Meaning, History
2. Scope and Objectives of Psycho Social Rehabilitation
3. Areas of Psycho Social Rehabilitation
4. Principles of Psycho Social Rehabilitation
5. Role of Social Worker at Rehabilitation Facilities

Unit III - Rehabilitation and De-addiction Programmes

1. Twelve Step Program
2. Alcohol/ Drug Anonymous Group
3. Health Support Group: Formation, Benefits and Risk
4. The Recovery Model : Meaning, Characteristics and Principles

Unit IV – Psychotherapies - I

1. Client Centered Therapy
2. Psychoanalytical Psychotherapy
3. Behaviour Therapy
4. Occupational Therapy

Unit V – Psychotherapies - II

1. Family Therapy
2. Chemotherapy,
3. Electro Convulsive Therapy
4. Psychodrama, Crises Card, Weightage Grid etc.

Require Reading:

- French, L.M. : Psychiatric Social Work(The Common Wealth Fund, New York 1940)
- Pathak, S. H. : Medical Social Work (Delhi School of Social Work)

- Banerjee, G. R. : Social Service Department : Its organization and Functions (TISS, Bombay)
- World health Organization : ICD-10 (AITS, New Delhi2002)
- Gelder, M. Gath, D. : Oxford Text book of Psychiatry, Oxford University Press (London,1996)

Paper 2: (Group B): Health Legislation, Policies and Programs

Unit I – Health Policy and Programme

1. United Nation's Sustainable Development Goals
2. The Transplantation of Human Organ and Tissues Act 1994 and Amendment Act 2011
3. The Transplantation of Human Organ (Amendment) Act 2011
4. NOTTO and NOTTR: Introduction, Functions

Unit II – Health Legislation - I

1. The Medical Termination of Pregnancy Act 1971
2. MTP Rules and Regulation 2003
3. The Pre Conception and the Pre Natal Diagnostic techniques Act 1994
4. The Protection of Human Right Act 1993

Unit III – Health Legislation - II

1. The Bio Medical Waste (management and handling) Rule 1998
2. The Rights of Person with Disability Act, 2016
3. Rehabilitation Council of India Act - 1992
4. National Trust Act -1999

Unit IV – Pandemics and Health programmes

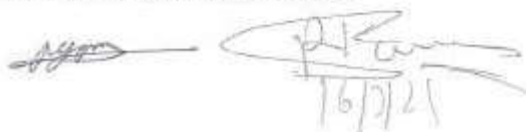

1. World History of Pandemics
2. SARS CoV-2 : Outbreak
3. National Emergency Preparedness Plan : Disaster Management
4. National Health Policy in India - 2017
5. Health Care Schemes, Program and Projects in India

Unit V – Mental Health Legislation and Administration

1. The Mental Healthcare Act - 2017
2. Community Psychiatry : History, Principle, Feature and Programs in Community Mental Health
3. School Health Program: Need & Organization of Health Programs in School
4. MPSW Department in Hospitals: Need, Structure and Administration.

Require Reading:

- French, L.M. : Psychiatric Social Work(The Common Wealth Fund, New York 1940)
- Patlak, S. H. : Medical Social Work (Delhi School of Social Work)
- Verma, R. : Psychiatric Social Work in India (Sage Publisher, New Delhi, 1991)

- Gelder, M. Gath, D. : Oxford Text book of Psychiatry, Oxford University Press (London, 1996)

Specialization (Group C): Urban and Rural Community Development

Paper: 1 (Group C) Development Management Part-11

Unit-I Manpower planning

1. Recruitment
2. Selection
3. Placement and induction
4. Performance appraisal and potential appraisal

Unit-II Training and development

1. Training and Development
2. Career development and career planning
3. Compensation and reward
4. Organizational development techniques

Unit-III Communication theories and practices

1. Components of communication
2. Factors affecting communication of messages
3. Communication practices adopted for extension activities

Unit-IV Project planning and logical framework analysis

1. Goal setting, formulation of objectives, identification of strategies and activities
2. Monitoring and evaluation of programs

Unit-V SWOT analysis for development organizations

1. Strategy development and strategy implementation
2. Organizational effectiveness through capacity building

Suggested Readings:

- Drucker P: Managing the Non Profit Organizations (Harper Collins, New delhi-1990)

- Rao, TV: Readings in Human Resource Development (Oxford and IBH, New Delhi-1991)
- Singh, Anup and Rajan K Gupta: Designing and Developing Organizations for Tomorrow (Sage Publications, New Delhi-2001)
- Ramnarayan, S and Rao, TV: Organizational Development: Sage Publications, New Delhi-1998)

Paper: 2 (Group: C) Urban Community Development and Municipal Administration

Unit-I Urban Community

1. Definition, Meaning and Characteristics of urban community
2. Nature of Urban Growth in India
3. Urban slums – Growth, Causes and effect on urban life

Unit-2 Factors leading to change and their impact on urban community

1. Urbanization, Industrialization, and Migration.
2. Influence of Liberalization, Privatization & Globalization
3. Problems of urban community – Housing, Health, Pollution, Waste disposal & sanitation, Recreation, Education, Prostitution and Child labour

Unit-III Urban Community Development

1. Need, origin and approaches
2. Urban development policies and programs of Government of India
3. Role of District Urban Development Agencies
4. Role of Development Authorities and other bodies (Town and country Planning, Housing Boards, Slum clearance Boards) in Urban Development.

Unit-IV Municipal Administration

1. History of Urban Local Self Government in India
2. Types of Urban Local Self Government in India – Municipal Corporation, Municipal Council/Nagar Palika
3. System of election to Urban Local Self Government
4. Ward Committees and citizen participation
5. Functions and Types of Urban Local Bodies

Unit-V 74th Amendment of Constitution and its implications

1. 74th Constitutional Amendment: Review of content and implementation
2. Contemporary issues and Potentials of Local Self Government
3. Urban Development Programs and Role of Local Self Government
4. Problems of Municipal Administration in India

Suggested Readings:

- Clinard Marshal B: Slums and Community Development (The Free Press, New York 1957)
- Siddiqui HY: Working with Communities (Hira Publications, New Delhi -1977)

- Sahah Gharshyam: Social Movements and the State (Sage Publications, New Delhi-2000)
- Pinto Marina: Metropolitan City Government in India (Sage Publications, New Delhi-2000)

Specialization (Group D): Social Welfare Administration

Paper: 1 (Group D): Social Welfare in India. (Part-11)

Unit-1

1. Legislative measures for the development of backward classes: Untouchability, abolition of bonded Labour system, and minimum wages for the agriculture Labour
2. Problems of small and marginal farmers and landless agriculture laborers, Developmental programmes for the small and marginal farmers

Unit-II

1. Problems of women and children in India
2. Policies, programmes and services for the welfare of women and children in India
3. Family welfare programmes and services,

Unit-III

1. Child rights (ILO Convention and SAARC Summit)
2. Social defence measures in India, programmes and services
3. Correctional administration in India: problems and prospects

Unit-IV

1. Problems of the disabled groups and aged in India
2. Policies and legal measures for the disabled groups and aged.
3. Welfare programmes and services for the disabled group and aged in India.

Unit-V

1. Institutional and non-institutional services for the disabled groups and aged: problems and prospects
2. Concept of rehabilitation and effectiveness of the present services in rehabilitation
3. Concept of integration and its implications.

Paper:2 (Group D)Administration of Social Welfare (Part-11)

Unit I

1. Project formulation and implementation
2. Budgeting and accounting in social welfare agencies; Resource mobilization

Unit-II

1. Organization: meaning and importance
2. Nature of organizational behavior.
3. Organizational structure in social welfare agency.

Unit-III

1. Personnel policies and administration: recruitment, selection, training, promotion etc. Supervision and staff development
2. Group work strategies in social welfare agencies.

Unit-IV

1. Concept and importance of management; Manpower planning
2. Office management procedures

Unit-V

1. Reporting and public relations
2. Coordination: meaning and importance; Monitoring and evaluation in social welfare agencies

Specialization (Group E): Women and Child Welfare

Paper:1 (Group E):Women's Welfare and Development Part-11

Unit-1

1. Atrocities against women: dowry deaths, wife battering, murder, female feticide and infanticide and sati Theory of violence against women: Theoretical propositions and approach. Psycho-pathological theory, socio-psychological theories, and socio-cultural theories.
2. Gender discriminations: causes and remedies

Unit-11

1. Nature of family organization: changing role and status of partners and factors affecting functions of family; Approaches to the study of family
2. Family life cycle and development tasks

Unit-111

1. Family life education; Marital disharmony and counseling
2. Changing patterns of marriage and its consequences

Unit-IV

1. Policies relating to women's welfare and development
2. Programmes relating to women's welfare and (education, health, nutrition, housing, employment etc) Constitutional provisions and legislative measures for women welfare.

Unit-V

1. Intervention of national and international voluntary agencies in areas of women's welfare.
2. Social work intervention for woman's welfare. Strategies and approaches. Women's movement for welfare and empowerment.

Paper: 2 (Group E) Child Welfare and Development (Part-11)

Unit-1

1. International labour organization convention concerning minimum age for admission to employment
2. Adoption: legislative measures and services
3. Prevention of child marriage: Legislative and other measures

Unit-11

1. Maternal and child health services: care for the under fives, malnutrition and immunization
2. School health services: Aspects of school health services
3. Evolution of child welfare programme in pre and post independence

Unit-111

1. Role of central Social Welfare Board, Indian Council of Child Welfare and Government in the development of welfare services.
2. Role of national and International Organizations in promoting child welfare services; Child welfare services: Institutional and non-institutional.

Unit-IV

1. Five-year plans and developmental services for children
2. Integrated approach to child development: need and philosophy.
3. Integrated child development scheme: Philosophy, aims and administration
4. ICDS: Programme in Urban and Basic Services

Unit-V

1. ICDS:Programme components; Child Development Programme in Urban Basic Services
2. Child Guidance Services in India.

 
16/7/24

(3) पद - फार्मासिस्ट ग्रेड-2

PHARMACEUTICS

Introduction to different dosage forms, their classification with examples-their relative applications. Familiarization with new drug delivery systems. Introduction to Pharmacopoeias with special reference to the Indian Pharmacopoeia. Size reduction, Size separation, Metrology-system of weights and measures. Calculations including conversion from one to another system. Percentage calculations and adjustment of products. Use of alligation method in calculations. Isotonic solutions. Mixing and homogenization. Packaging of pharmaceuticals Extraction and galenicals, Clarification and filtration, Heat processes, Introduction to drying processes, Distillation, Sterilization-concept of sterilization and its differences from disinfection-thermal resistance of microorganisms. Detailed study different sterilization processes. Study of immunological products like sera, vaccines, toxoids and their preparations., Processing of tablets, Processing of capsules.

PHARMACEUTICAL CHEMISTRY

Acids, bases and buffers, Gastrointestinal agents, Acidifying agents, Antacids, Protectives and adsorbents, Saline cathartics. Antioxidants, Topical agents - (i) Protectives (ii) Antimicrobials and astringents (iii) Sulphur and its compounds (iv) Astringents-alum and zinc sulphate. Dental product, Inhalants, Respiratory stimulants, Expectorants and emetics, Antidotes. Major intra and extracellular electrolytes, Inorganic official compounds of iron, iodine and calcium; ferrous sulfate and calcium gluconate. Radio pharmaceuticals and contrast media radioactivity, Identification tests for cations and anions as per Indian Pharmacopoeia. Quality control of drugs and pharmaceuticals.

PHARMACOGNOSY

Definition, history and scope of pharmacognosy including indigenous system of medicine. Various systems of classification of drugs of natural origin. Adulteration and drug evaluation; significance of pharmacopoeial standards. therapeutic effects and pharmaceutical applications of alkaloids, terpenoids, glycosides, volatile oils, tannins and resins. Occurrence, distribution, organoleptic evaluation, chemical constituents including tests wherever applicable and therapeutic efficacy of (a) Laxatives (b) Cardiotonics (c) Carminatives & G.I.regulators catechu. hyoscyamus, belladonna, aconite, ashwagandha, ephedra, opium, cannabis, nux vomica. rauwolfia. vasaka, tolu balsam, tuls. guggal, colchicum, vinca. chaulmoogra oil. pterocarpus, gymnema sylvestro. gokhru, punarnava. ipecacuanha. benzoin, myrrh, neem, curcuma. cinchona. ergot. shark liver oil and amla. papaya, diastase, yeast. Collection and preparation of crude drugs from the market as exemplified by ergot, opium, rauwolfia, digitalis, senna. Study of source, preparation and identification of fibres used in sutures and surgical dressings-cotton, silk, wool and regenerated fibres.

BIOCHEMISTRY AND CLINICAL PATHOLOGY

Introduction to biochemistry. Brief chemistry and role of carbohydrates, proteins, lipids, their classification and related diseases. Role of minerals and water in life processes. Brief chemistry and role of vitamins and coenzymes. brief concept of enzymatic, Introduction to pathology of blood and urine.

HUMAN ANATOMY AND PHYSIOLOGY

Definition of various terms used in anatomy, physiology, Structure of cell, unction of its components with special reference to mitochondria and microsomes. Elementary tissues of the body, Composition of blood, blood group and coagulation of blood, Name and functions of lymph glands. Anatomy and physiology of different body systems in Brief.

HEALTH EDUCATION & COMMUNITY PHARMACY

Concept of health-definition, indicators of health, concept of disease, prevention of diseases. Environment and health. First aid-emergency treatment in shock, snake bite, burns, poisoning, heart disease, fractures and resuscitation methods. Elements of minor surgery and dressings. Fundamental principles of microbiology, organisms of common diseases. Non-communicable diseases-causative agents, prevention, care and control. Cancer, diabetes, blindness, cardiovascular diseases. Communicable disease-causative agents, modes of transmission and prevention. (a) Respiratory infections-chicken pox, measles, influenza, diphtheria, whooping cough and tuberculosis. (b) Intestinal infections-poliomyelitis, hepatitis, cholera, typhoid, food poisoning, hookworm infection. (c) Arthropod borne infections-plague, malaria, filariasis. (d) Surface infections-rabies, trachoma, tetanus, leprosy. (e) Sexually transmitted diseases-syphilis, gonorrhoea, AIDS. Nutrition and health, vitamins and minerals. Demography and family planning, natural family planning methods, chemical methods, mechanical methods, hormonal, contraceptives, population problem of India. Epidemiology - I mmunity and immunisation, immunological products and their dose schedule. Principles of disease control and prevention, hospital acquired infection, prevention and control.

DISPENSING PHARMACY

Prescriptions: Reading and understanding of prescription; Incompatibilities in prescriptions, Posology: Dose and dosage of drugs, Dispensed Medications: (i) Powders (ii) Liquid oral dosage (b) Biphasic liquid dosage forms: • Suspensions • Emulsions (iii) Dental and cosmetic preparations: (iv) Semi-solid dosage forms: (a) Ointments (iv) emulsification. (v) Sterile dosage forms: (a) Parenteral dosage forms (b) Sterility testing, (c) Ophthalmic products- study of essential characteristics of different ophthalmic preparations.

PHARMACEUTICAL CHEMISTRY II

jchemistry of pharmaceutical organic compounds covering their nomenclature, chemical structure, uses and the important physical and chemical properties. The stability and storage conditions and the different types of pharmaceutical formulations of the drugs.

Pharmacology and Toxicology

Introduction to pharmacology, scope of pharmacology. Routes of administration of drugs, their advantages and disadvantages. Various processes of absorption of drugs and the factors affecting them. Metabolism, distribution and excretion of drugs. General mechanism of drugs action and the factors which modify drugs action. Pharmacological classification of drugs. (i) Drugs acting on the central nervous system: (a) General anaesthetics, intravenous anesthetics. (b) Analgesic, antipyretic, sedatives and hypnotics, anti-convulsants, (ii) Local anaesthetics. (iii) Drugs acting on autonomic nervous system. (iv) Drugs acting on eye, (v) Drugs acting on respiratory system (vi) Antacids, (vii) Cardiovascular drugs, (viii) Drugs acting on the blood and blood forming organs. (ix) Drugs affecting renal function (x) Hormones and hormone antagonists (xi) Drugs acting on digestive system

Pharmaceutical Jurisprudence

(4) पद - नेत्र सहायक

Anatomy and Physiology

Human Anatomy with special reference to special senses. Organs of special senses. Pany Orbit and ocular adnexa (lids & lacrimal system). Ocular muscles & cranial nerves. Gross anatomy of coats of eye ball (Cornea, Sclera Uvea, retina, lens & Vitreous).

Physiology of the Eye Ball:

Physiology of vision including colour vision. Ocular movements & Binocular Vision. Accommodation & convergence. Formation & circulation of aqueous & lacrimal fluids.

Physics & Optics:

Law of refraction & reflection spherical & cylindrical surfaces. Optical aberrations of ophthalmic glasses. Prisms (a) Nomenclature (b) Uses.

Microbiology:

Introduction to the various organisms responsible for ocular diseases (Bacteria, virus & fungi). Technique of conjunctival smears, cultures, scrapings & staining (Gram's & KOH). Infections & its prevention-routes, cross infection antisepsis & asepsis.

Clinical Pathology:

Examination of urine - Gross albumin & sugar. Preparation & staining of blood slides for DLC and malarial parasite.

Pharmacy:

various methods of Administration of drugs in ophthalmic diseases. Preparation and dispensing of various ophthalmic drugs including fluorescence, Mercurochrome, sodium sulphacetamide, homatropine, atropine pilocarpine & antibiotic drops. various side reaction of common ophthalmic drugs & drug abses. Anaesthetics & Antibiotics and acetazolamide. Miotics & Mydriatics.

Vision Testing:

various components of vision, principles of testing for visual acuity.

Geometrical & Physiological Optics:

Optics of human eye and refractive errors. Myopia, hypermatropia & its correction. Aphakia its correction. Astigmatism, Prebyopia & its correction. Ophthalmic Lenses. Contact Lense-uses and abuses. Checking of spectacles. Protective glasses & L.V.A.

Retinoscopy & Subjective Testing:

Visual Fields:

Common Eye Diseases:

Types of conjunctivitis including trachoma. Corneal ulcers & opacities. Iritis & cataract. Lids & lacrimal sac. And eye emergencies. Chemical & radiotional injuries including prevention, first aid & treatment. Mechanical injuries, prevention first & treatment.

Glaucoma:

Squint:

Systemic Disorders:

Diabetes & hypertension.

Nursing care of Ophthalmic Patients:

Ophthalmic Instruments:

Ocular Surgery, Fundamentals of Asepsis Technique:

Ophthalmic Dianosis Equipment (Maintenance):

Minor Surgical Procedures:

Emergency Resuscitation: General & Ophthalmic.

Medical Records: Diseases index, alphabetic index, and numerical index major & minor surgical records.

Health Education:

National Plan for Control of Blindness. Screening of School children for eye problems. Survey methodology. Rehabilitation of blind & vocational training for blind. Role of Ophthalmic Assistants in eye camps.

Training at Mobile Ophthalmic Unit, Organization of Eye camps. Publicity technique. Arrangements of OPD at camps. Arrangements of refraction of camps. Arrangements operation theatre at camps. Arrangements of wards at camps. Arrangements of sanitation and illumination at camp. Arrangements of catering at camps. Arrangements of exhibition at camp. Public relation with voluntary organization. Interaction with volunteer. Health education - General & Ophthalmic. Survey in Schools & SUB-health Centres.

Pre-operative preparation of patient in camp. Anaesthesia & Akinesia. Dispensing & Preparation of drops. Eye dressing & bandaging including preparation of dressing trolley. Role of Ophthalmic Assistant in O.T. Sterilization, carbolization & Fumigation. Follow up instructions to patients & follow up visit. Eye Health education.

Ocular Emergencies:

Injuries of the eye including F.B.'s. Acute glaucoma. Causes of sudden blindness.

(5) पद - O.T. TECHNICIAN

1. Introduction to surgery and basic surgical procedures
2. Sterilization of equipment and O.T. (Aphasia, Antisepsis & Fumigation.) & O.T. hygiene.
3. Surgical infection in O.T. & prevention anti Microbial therapy.
4. Fluids & electrolytes & intra venous fluids & setting up of IV line & Eletransfuisa.
5. Shifting of O.T. patients (Pre & Post op.) Sp. trauma patients.
6. Various surgical instrument.
7. Maintenance & care of general & special surgical instruments & equipments.
8. Pre-Op requirements (case papers, Pt. identification, consent, pre-op instruments).
9. Positioning of patient for special surgical procedures.
10. Control of Hemorrhage & resusaration.
11. O.T. illumination.
12. Preparation of surgical field.
13. Assisting at operation & setting up of instrument trolley
 - (a) Gen. surgery.
 - (b) Uri. Surgery.
 - (c) Gastrointestinal surgery.
 - (d) Neurosurgery.
 - (e) Cardiovascular surgery.
 - (f) Orthopedic surgery.
 - (g) E.N.T surgery.
 - (h) Gynaelological & Obstetric surgery.
14. Surgical sutures.
15. Collection of specimens
16. Dressing material & their application.
17. Waste disposal.
